ADDITIONAL INFORMATION

Projects

06/09/2023 – 10/11/2023

Hira Dental Lab "As part of my role at Hira Dental Laboratory, I spearheaded the development of our company website, available at hiradentallab.com. This project showcases my proficiency in HTML, CSS, and JavaScript, as I designed and implemented exclusive layouts and functionalities. The website serves as a pivotal platform for our customers, offering comprehensive information about our services and guiding them through the dental field. Through intuitive design and informative content, we aim to enhance customer engagement and satisfaction, reinforcing our commitment to excellence in dental services."

11/10/2023 – 10/11/2023

Denture Repair Coventry "As part of my role, I led the development of denturerepairscoventry.co.uk, a comprehensive website dedicated to our denture services at Hira Dental Laboratory. Leveraging my expertise in web development, I crafted an intuitive platform using HTML, CSS, and JavaScript. This website enables seamless interaction with our customers, allowing them to schedule appointments, inquire about services, and access detailed information about our company. With user-friendly features and informative content, we aim to provide an exceptional online experience, reinforcing our commitment to customer satisfaction and accessibility in the dental industry."

16/12/2023 - CURRENT

Hira-Tech "As a pivotal member of the team, I am currently spearheading the development of Hira-Tech, an innovative e-commerce platform for dental supplies. Utilizing cutting-edge technologies such as React for frontend and Django for backend, we're creating a dynamic and user-friendly website. Hira-Tech offers a wide range of dental products including tibases, screws, tools, parts, sleeves, and more, essential for dental implant procedures. One of the key highlights of this project is our focus on providing seamless payment functionality, ensuring a smooth and secure transaction process for our customers. With an emphasis on user experience and functionality, Hira-Tech aims to revolutionize the procurement process for dental professionals, offering convenience and reliability in the acquisition of essential supplies."
